About Us

Established in Dubai 2010, Inoquest Labs Industries LLC (IQ) is committed to research, development and production of innovative products in disinfection, sanitation and cleaning.

It is our key concern to combine and balance our products efficiency with environmental responsibility. Inoquest Labs as a young and dynamic company - is always on the level of latest innovation and technological progress.

In addition to offering our products we are committed to develop with our customers a problem-solving relation. Our customers aim to have the best disinfectant and cleaning solutions are the focus of our efforts. With customized concepts and products we are partner to reach that goal on a daily basis. Through these unique efforts our ambition will be to build a durable trust and reliable cooperation with our customers.

66

Together with our customers,

For almost 30 years our management have been offering our business partners our expertise so that they can realise new product ideas in their name. Together with our customers, we develop product concepts that comply with the latest market requirements and legal regulations.

Our Vision

Position ourselves to be a regional player of Hospital Care & Hygiene Products. Improve on contemporary measures including cost, quality, service, speed of delivery and mobilization. Keep investing in technology, systems and human resource to effectively meet the challenges every new dawn brings.

Our mission

To be a partner in the markets of Health Care Industry by providing quality products and superior service to our customers, while learning from their feedback to set even higher standards for our products. IQ that endeavors to set the highest standards in corporate ethics in serving the society.

Our Value

Mutual respect binds us together. We comply with ethical work principles and encourage all of those we work with to follow suit. It matters to us how we nurture our relationships with employees, users and business partners. Every individual is important for IQ's success.

Together with our employees, we are building a safe, healthy and creative company. Our work is planned with people and the environment in mind. All resources are used prudently for a noble cause. By managing and constantly improving processes, we offer high-quality and innovative products.

We are everywhere, all of the time. Every touch is a unique experience. We invest in the development of people and equipment in cooperation with the best experts. We perform our work conscientiously and strive to be the best in everything we do.

Tablet Pressing Machine

Director Statements

IQ is a company that meets the hygiene needs of its customers day after day. Our hygienic products enhance quality of life. We offer comprehensive solutions to everyone who is a part of the IQ's story, and work with them to create opportunities for our mutual and sustainable development. Proudly since 2010.

Systematically deal with hospital micro-organisms
Multi-drug resistant micro-organisms are a known risk in hospitals and medical facilities. The risk of transmitting infection via personnel is high but can be prevented by effective hand disinfection. Regular surface disinfection and cleaning can also control the transmission of micro-organisms to patients and personnel.

We provide you with reliably effective and user-friendly products. For all medical and nursing areas.

Advanced Chemical Lab

Oliver Balk General Manager

Our many years of experience developing and manufacturing disinfectant and cleaning agents means that we provide you with reliably effective and user-friendly products for all medical and nursing areas.

As a professional partner, we support you with our extensive technical expertise, innovative products, a deep appreciation of quality and the necessary flexibility.

We are also happy to follow your specific requirements and turn your product ideas into reality.

Our Company

We create creative work to promote your business.

The success of any organization is mainly dependent on the people working for it. Each member of our team is considered equally important and provided constant training, motivation, and guidance. We possess a dedicated staff of the highest caliber committed to making our business a success.

Our policies and core values aim to create an informal yet stimulating team-oriented work environment with a culture of sharing and open communication. We cherish the diversity of viewpoint of every individual; we realize this encourages innovation and develops character. All employees have the right to a stress and injury-free work environment.
